PRICE ADJUSTMENTS ADVICE – EFFECTIVE 1ST JANUARY 2009

To our valued customers,

Most suppliers to our business have advised or are in the process of giving us price increases.

The most recent is the ITW Buildex Screw price increase effective 1st January 2009. As this affects the majority of the products that we stock we will now consolidate all adjustments at once in the New Year.

Effective 1st January 2009 all products will increase in accordance with the appropriate suppliers increase within each category. All letters from suppliers advising these adjustments will be viewable at our website by clicking on the "News & Events" icon.

As per our terms and conditions all prices are subject to change without notice. However when ever possible we will always try to give advance notice. This is becoming increasingly more difficult in these times of worldwide financial turmoil forcing very fast price movements.

We are currently preparing the new price lists, which can be downloaded off our website at www.aerofast.com.au and clicking on the "Price List" icon. All discounts off list prices will remain as per your quotations currently in place. Any special nett and bulk buy prices on effected products will be re-quoted and posted in December.

All of us at AeroFast thank you for your business and past support and will continue to service your requirements to keep you satisfied. Please contact us if you require any further information regarding this correspondence.

Yours sincerely,

AEROFast
