PRICE ADJUSTMENTS ADVICE

To our valued customers,

We wish to advise a 3% price increase on our Buildex screw fastener range that will take effect on 1st October 2010.

Also over the past few months we have absorbed increases from many other suppliers with no effect to you. However with most of these increases ranging from 3% to 8% we will now have to make necessary adjustments to your prices collectively.

Effective 1st October 2010 all products will increase in accordance with the appropriate suppliers increase within each category.

We are currently preparing the new price lists, which can be downloaded off our website at www.aerofast.com.au and clicking on the "Price List" icon, or we can post on request. All discounts off list prices will remain as per your quotations currently in place. Any special nett and bulk buy prices on effected products will be re-quoted.

With increasing costs from transport and courier companies, new toll road networks and fluctuating fuel prices, we will also be charging a minimum of \$12.50 per delivery effective on 1st September 2010. Still great value for the prompt efficient service we offer to sites and store deliveries.

All of us at AeroFast thank you for your business and past support and will continue to service your requirements to keep you satisfied. Please contact us if you require any further information regarding this correspondence. You can also view this letter and other relevant pricing news by going to our website and clicking on the "News & Events" icon.

Yours sincerely,

AEROFast

Chris Christofi
General Manager
