8th October 2008

PRICE ADJUSTMENTS

To our valued customers,

Please be advised that there will be price adjustments on products that we sell as follows;

Hogan's Touch-up Spray & Aquarius Pipe Flashings

Effective 1st November the Hogan's brand Spray Paint and all Aquarius Pipe Flashings will increase by a minimum 5%. List prices will be adjusted and you can download them at www.aerofast.com.au and follow the link off the "Price Lists" icon.

Purlin Bolts (Flanged and Assembled all grades)

Effective immediately Purlin Bolts will be quoted on invoice at time of purchase. Steel pricing, ever increasing transportation costs and the quickly devaluing Australian Dollar, continues to push the price up on Purlin Bolts every time we buy them. Therefore it is becoming increasingly difficult to offer any long term fixed pricing. We will continue to offer the best rates in line with previous quotations, however your buying price will be regulated by our most current purchase price. We appreciate your understanding on this matter.

Huck Fasteners and Tooling

Alcoa has advised a minimum 15% increase on the Huck range of fasteners (Structural Rivets) effective immediately, with tooling also moving up to 50%. We will however implement the adjustments on the 1st November 2008 for the fasteners; any tooling will be quoted prior to sale. We were given short notice on this because of the very fast slide of the Australian Dollar. Our current Huck Fastener stock levels should see out the month at the old levels.

It is becoming obvious due to the current worldwide financial crisis that price increases will be on the horizon for all importers and manufacturers of products, so please brace yourself for future adjustments, some possibly with very little notice.

Once again, all of us at AeroFast thank you for your business and past support.

Please contact us if you require any further information regarding this correspondence. You can also get copies of this letter and other relevant pricing news and industry updates by going to our website and clicking on the "News & Events" icon.

Yours sincerely,

AEROFast

Chris Christofi
