Re: Price Rise

As you are no doubt aware, the iron ore & steel industries are going through a volatile period with regards to demand and pricing. Worldwide steel prices have increased up to 64% since January 2008.

Due to these massive increases Big Gee has to increase its prices as of 1st August 2008. We will **NOT** be replacing the February 2008 price list but we are going to reduce the discounts by 5%

This effectively means a 10% price increase across the range of products.

We apologize for any inconvenience this may cause.

We would appreciate it if you could notify your staff of the price rise, and again would like to thank you for your continued support and understanding of the circumstances. If you have any queries please don't hesitate to call myself or your Sales Representative

Regards,
