**RE: THREADED ROD LIST PRICE INCREASE**

Dear Customer

As you are aware global steel volatility continues to affect the supply of Fasteners. Accordingly we will be increasing our threaded rod prices.

Ongoing cost increases driven by steel prices and material shortages are affecting the cost of all fastener products and further increases will be announced.

Bremick acknowledges that continual increases create difficulty for distributors. The ability for you to pass on increases to your customers can be challenging. This is especially the case where increases from wholesalers are in the form of discount changes. For this reason our threaded rod increase will be implemented via a list price change.

Bremick's new Threaded Rod List Price will be effective 2 June 2008

Please contact your local branch for a copy.

Yours sincerely

George Technitis
