9th May 2008

To Our Valued customers

As you would be aware Holdite has not increased prices since 2006 and since that time the cost of raw materials, labour, transport and sub-contracting costs have all increased significantly. Steel merchants are notifying us of double digit increases in steel product costs and flagging their expectation of significant additional increases in the coming weeks. Holdite Industries will be implementing price increases effective 1st July, 2008 We have attempted to limit the extent of this increase, but it is necessary to increase prices of standard stocked products by 10%. This change will be implemented by reducing the current discount of listed products from the current 60% to 56% effective 1st July 2008.

We thank you for your ongoing support and should you have any questions, please contact our customer service team or myself on 02 9724 1022.

Yours sincerely

Trent Stewart
Manager
Holdite Industries Pty Ltd.
