Minimum order surcharge.

Ramset has been working hard with our logistics department and our freight carriers to minimize the impact fuel & labour costs are having on our products.

However, we regret to advise that we are no longer able to absorb these increases and, as a result, will be introducing a delivery surcharge of \$20 on all orders below \$200 excl GST.

We are confident with our wide range of over 1,000 quality products that this minimum order amount can be met with minimal disruption to your business.

This surcharge is effective 1st April, 2008.

We remain committed to our mission of delivering "in full & on time" and providing market leading service levels.

Thank you for your ongoing support.
